Direction for use

For sanitizing of all surfaces. Before sanitizing, scrap excessive soil and clean the surfaces. Mix 1 part of KF631 with 75 parts of water. Apply by using either misting, spraying or mopping. Leave solution on surface for at least 10 minutes. Safe to be used in food processing plant and sanitation chamber.

Important: After dilution, solution will oxidize. Must be use within 1 week.

Caution

Although after dilution, it is relatively safe on skin contact, caution must be taken not to get in contact with the eyes.
